CPC31420 Certificate III in Construction Waterproofing

Description

This qualification provides a trade outcome in waterproofing for the residential & commercial construction industry. Occupational titles may include:

- ✓ Waterproofer

The qualification has core unit of competency requirements that cover common skills for the construction industry, as well as a specialised field of work.

The construction industry strongly affirms that training and assessment leading to recognition of skills must be undertaken in a real or very closely simulated workplace environment and this qualification requires all units of competency to be delivered in this context.

Completion of the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007) and as per Work Health and Safety Regulation 2011 - Part 6.5 General construction induction training is required before entering a construction work site. Achievement of unit CPCWHS1001/CPCWHS1001 meets this requirement.

Packaging Rules

To achieve this qualification, the candidate must demonstrate competency in:

19 units of competency:

- 14 core units
- 5 elective units.

Some units in this qualification may have prerequisite requirements, which must be met when packaging the qualification. Users are referred to the list of CPC units with prerequisite unit requirements available in this Training Package for this purpose.

Enrolment Options

We currently offer this qualification as:

- an Apprenticeship over 36 months or
- RPL assessment only with a maximum duration of 3 months.

Once you have decided to go ahead with the course return your completed enrolment form and ensure the commencement payment for your course has been made. (Please see the payment form for details). When this is received at our office (email/fax/post), Building Industry Training will provide you with the necessary documents/learning resources/assessments and the details of your trainer so you can begin your studies.

Fees Charges and Refunds

Course costs and payment options are attached on the payment form/course information. Refunds will not be issued to students due to change of mind once the training/assessment process has commenced.

Commencement Requirements

Individuals undertaking RPL assessments for this qualification will have 4 years' experience as a minimum in the construction industry.

Pathways Information

This qualification is just one of the requirements for an individual to obtain a licence with their states regulatory body. Please consult with your local authority to ensure you are eligible and meet other criteria prior to commencing studies with Building Industry Training. After the completion of this qualification it is recommended that the student undertake an Approved Managerial Course for Trade Contractors or Certificate IV in Building and Construction.

This qualification contains the following units:
